WHS Security Office for DD254 Process

WHS Security Office Process Map
Industrial Security
Security Classification Specification
DD254 Processing via PDF

Contracting Officer Representative (COR)

Start

Prepares a draft DD254 and Submits it with Contract Docs to WHS Security

Returns DD254 to COR for Revision

Sends the DD254 to COR to Review and Sign the Certifying Official Portion of the DD254

COR Releases DD254 for Solitation, or to the Prime Contractor

Vendor/ Contractor has FCL?

Yes

End

No

Washington Headquarter Service (WHS)

Reviews the DD254 & Contract Docs (Task & Delivery Orders, SOW, etc)

Draft DD254 Acceptable?

No

Yes

Signs the REVIEWER Porton of the DD254

WHS Must Sponsor the Venor/ Contractor (COR obtains Vendor/ Contractor info needed for FCL Sponsorship)

Submits the Request for Facility Sponsorship to DCSA (Fully Signed DD254, Contract Docs to Support Justification to Grant an FCL)

Requires Better Justification from WHS SO/COR

No

Defense Counterintelligence and Security Agency (DCSA)

NOTE:

- PDF is the current method to process a DD254, however this is transitioning to NCSS. The FAR requires use of NCCS
- PDF and NCCS differ in that PDF does not have onboarding or role registration.
- GCA contracting officer will sign the final DD254 in pdf form.
- GCA has delegated this signature authority to the WHS Security Office, but only for our security customer.
- NCCS is an unclassified system, therefore any DD254s that will have actual classified information entered into the DD254 must be processed using the PDF version, and processed on the appropriate level of classified information system (e.g., SIPRNET)ÝWHS ensures requirements align with all phases, and contractors must show this document for access, upgrades and other sec access reqs

DCSA Processes Vendor for FCL

Approval?

Yes

May Grant Interim or Final FCL Approval when/if Appropriate

End
